ALICIA A. LABAO

AI-FORWARD VIRTUAL ASSISTANT · QA & OPERATIONS BACKGROUND · WEB & AUTOMATION

ABOUT ME

AI-forward virtual assistant with 15 years of quality-assurance and operations experience, now pairing that process discipline with modern AI tools. Trained through Arca Academy on Claude Code, web development, automation, and AI-assisted research, I build and ship real work — from deployed websites to automated workflows — backed by the documentation, testing, and review habits of a QA background. I can own admin, operations, research, and content tasks end to end, and I know when to escalate rather than guess.

PORTFOLIO / PROJECT

Noted Haven — Custom Stationery Brand Personal Project, 2026
Designed, built, and deployed a multi-page brand site (landing page, product pages, and an interactive custom-order builder) using Claude Code and Claude Design. Integrated AI-generated product imagery.
